

American Academy of Pediatrics (AAP)

American Academy
of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN®

- American Academy of Pediatrics é uma organização de 67.000 pediatras comprometidos com a saúde e bem-estar físico, mental e social ideal para todos os bebês, crianças, adolescentes e jovens adultos.

A página inicial da editora é dividida em seis partes:

1. Caixa de pesquisa básica
2. Área de pesquisa avançada
3. Área de autenticação
4. Barra superior de navegação
5. Destaques
6. Blog

The screenshot shows the AAP Gateway website homepage. The layout is as follows:

- 1:** Search bar with a dropdown menu set to "All Journals" and a search icon.
- 2:** "Advanced Search" button.
- 3:** User authentication area with "Log in" and "Log out" links, and text: "Institution: Coordenacao de Aperfeiçoamento de Pessoal de Nível Superior".
- 4:** Navigation menu with items: Journals, AAP Policy, Pediatric Collections, Multimedia, Alerts, AAP Career Center, and Subscribe.
- 5:** Main content area featuring "AAP News" with a featured article: "American Board of Pediatrics to award MOC points for COVID-19 response". It also includes a "Latest News" section with links to "COVID-19 outbreak", "FDA notes limitations of COVID-19 antibody tests", and "U.N. urges action to mitigate risks of pandemic".
- 6:** "AAP Policy" section with a list of articles: "Children With Intellectual and Developmental Disabilities as Organ Transplantation Recipients", "Optimizing Resources in Children's Surgical Care: An Update on the American College of Surgeons' Verification Program", "Providing Care for Infants Born at Home", "Eradicating Polio: How the World's Pediatricians Can Help Stop This Crippling Illness Forever", and "Clinical Practice Guideline: Nosebleed".

Below the AAP Policy section is the "Journals Blog" section, which features three article teasers: "What Flavors Do You Have?", "Racial and Ethnic Differences in Emergency Pain Management in Children: Why Is This Happening and What Can We Do About It?", and "The Challenge of Rash Diagnosis: Is Travel a Factor or a Red Herring?".

A página de pesquisa avançada é dividida em três partes.

Abstract

The Autism Treatment Network and Autism Intervention Research Network on Physical Health were established in 2008 with goals of improving understanding of the medical aspects of autism spectrum disorders. Over the past decade, the combined network has conducted >2 dozen clinical studies, established clinical pathways for best practice, developed tool kits for professionals and families to support better care, and disseminated these works through numerous presentations at scientific meetings and publications in medical journals. As the joint network enters its second decade continuing this work, it is undergoing a transformation to increase these activities and accelerate their incorporation into clinical care at the primary care and specialty care levels. In this article, we describe the past accomplishments and present activities. We also outline planned undertakings such as the establishment of the Autism Learning Health Network, the increasing role of family members as co-producers of the work of the network, the growth of clinical trials activities with funding from foundations and industry, and expansion of work with primary care practices and autism specialty centers. We also discuss the challenges of supporting network activities and potential solutions to sustain the network.

• Abbreviations:
 AIR-P — *Autism Intervention Research Network on Physical Health*
 ASD — *autism spectrum disorder*
 ATN — *Autism Treatment Network*
 ECHO — *Extension for Community Healthcare Outcomes*
 FAC — *family advisory committee*
 GI — *gastrointestinal*
 PCP — *primary care provider*
